

How the registration process works--

- Click on our website at <https://wfuparking.t2hosted.com/Account/Portal> .
- As our website will be busy during this time, you could be placed in queue, which will show your waiting position to enter the parking portal. Do not refresh your screen, as you will lose your position. This screen will automatically refresh every 7 seconds. See screenshot #1.
- Your place in queue indicates your position in-line waiting to enter the portal so you can begin the purchase process. It is not your position to purchase a permit.
- You will only be in-line for a permit once you are logged in and authenticated to order. See screenshot #2.
- Permits could be sold out by the time you enter the portal, as they are limited.
- Any questions before registration begins, email Transportation and Parking Services at parking@wfu.edu. Office hours are 8:30am-4:30pm, Monday-Thursday and 8:30am-3:00pm on Fridays. If it is after hours, office staff will respond to your email on the next business day.

Step 1- Lobby waiting until the portal allows more customers to enter- Do not refresh!

Step 2- Authentication is done by using your WFU username and password to enter the portal to order a permit- Do not Refresh!
