Faculty choose to be teacher-scholars at Wake Forest because we believe in the transformative power of education. As we struggle to confront the serious challenges surrounding how we live, learn, and work as an inclusive community, I remain committed to working very hard to support all our faculty and staff and to deliver an exceptional education for all our students. It is through our shared commitment to our educational mission and to moral justice as embodied in our motto of pro humanitate that will see us through this difficult moment. There is so much wonderful learning happening throughout our classrooms, offices, studios, labs, centers, and hallways each and every day, thanks to the vision, expertise, and passion of so many, that I have every confidence we will emerge as an even stronger, and an even more exceptional college in the years ahead.
