In addition to being the campus minister for the BSU I teach in the divinity school and also teach a variety of classes at the community college such as New Testament. While I was an associate chaplain at Wake I was the faculty adviser for the Interfaith Council and I've enjoyed ecumenical projects with our other Christian groups on campus. Baptist Student Union is a community that has meant a great deal to me and my family over the years. It's a community that was there for me as I traveled on my spiritual journey through my undergraduate years and I absolutely love being able to walk along side students as they grow in faith.
