

OUR MISSION

The purpose of College LAUNCH for Leadership is to promote access to higher education by increasing social consciousness and awareness of opportunities available for high school students who have been identified as having extraordinary academic and leadership potential. By exposing students to various careers and conversations pertaining to justice, equity, and human rights, they will be better equipped to serve humanity as they pursue their academic goals. In May, students will present a research project—The Mission Control—connecting what their career goals to their personal social justice mission. Through College LAUNCH for Leadership, students will become equipped with the critical thinking, analytical, writing, and public speaking skills necessary for academic success in college.

FAST FACTS
