*The hardest conviction to get into the mind of a beginner  
is that the education upon which he is engaged  
is not a college course, not a medical course,  
but a life course, for which the work  
of a few years under teachers  
is but preparation.*

From the Valedictory Address by Sir William Osler  
McGill University, April 14, 1905

*Candidates for and holders of master's and doctor's degrees wear hoods over their robes.*

*The hood symbolizes a heavy burden. It identifies the level of the degree, the field of learning and the institution which awards it. The color of the trim declares the major field of learning; forest green represents medicine. The colors that line the hood identify the university awarding the degree.*
